

OUR COMMITMENT

At INDCRESA we are committed to sustainability, environmental protection and fight against climate change.

Based on this commitment, our guiding principles are:

- Ensure compliance with all applicable legal requirements and regulations regarding sustainability and environmental management.
- Support the 2030 Agenda and the Sustainable Development Goals of the United Nations, as well as the principles of the Global Compact in the areas of human rights, labour standards, environment and the fight against corruption.
- Integrate sustainability and respect for the environment at all organizational levels of Indcresa and throughout the value chain, ensuring the availability of necessary resources while considering stakeholders expectations.
- Keep Implemented an environmental management system based on ISO 14001 standard.
- Contribute to mitigating the effects of climate change by committing to reducing our carbon footprint and working to increase energy efficiency.
- Minimize environmental impact by using our resources responsibly, optimizing water use and effectively managing waste and while working to minimize their generation.
- Reduce food waste by closely monitoring process losses and adopting measures to decrease generation of cocoa not fit for human consumption.
- Create social value in both the short and long term by maximizing positive impacts and minimizing potential negative impacts on society and the environment, promoting sustainable business practices, and establishing partnerships and collaborations with all our stakeholders.
- Evaluate sustainability actions throughout our value chain, to minimize potential negative environmental impacts, setting reduction targets and implementing measures to achieve them.
- Ensure continuous learning in sustainability and environmental matters for all Indcresa personnel, thereby encouraging their participation and collaboration to achieve the defined objectives.
- Safeguard the environment by working to prevent deforestation in cocoa-producing countries, and promoting good environmental practices among our suppliers and contractors.
- Report periodically and transparently to stakeholders through economic, environmental and social performance indicators, in accordance with international reporting standards.
